PRODUCTS AND SERVICES INFORMATION

Repairs versus replacement

FAST AND COST EFFECTIVE

As the UK Distributor for MICROFRANCE laparoscopic instruments, we have the parts and skills to repair, re-insulate and re-align them.

As we often have to replace instruments that have been sent elsewhere for repair and become non-functional our top tip is - **send**

Deep pelvic retractor

NEW AND EXCLUSIVE TO SIGH

Ideal for deep urological, gynaecological, general abdominal surgery or for obese patients, **this retractor has the longest blade available at 27.5cms** and is obtainable:

- As a standard unit
- With fibre light attachment

your instruments to us for repair and help avoid the high cost of replacement.

To book a repair call SIGH on 020 8683 1103.

Bipolar & diathermy forceps
